Additional Costs:	<p>At the completion of your rodent program, it is highly recommended to have the stations checked on a regular basis, i.e. twice a year with the goal of staying pest free. We have a variety of rodent programs that you can choose from to meet your needs and budget.</p>

Health & Safety:	<p>All exterior stations are anchored into the ground. Where possible all interior mouse stations are placed out of view/reach of non target animals e.g. behind the stove, under sink, under the fireplace etc. It is important for all parties to understand that the chemical being used to eliminate the rodent infestation will harm and potentially be fatal to non target animals. The label is the law.</p>
